

Shadows of Tomorrow

Letting you go

Another day will come tomorrow
For the first time you won't be here
Another day will come with sorrow
My happiness will disappear
(I'm so sorry to let you down)

It's hard letting you go
So hard letting me know
You'll never be my love again
It's hard letting you go
So hard being alone
Please give me something for the pain
Something for the pain

It's time for us to say goodbye
I really wish you to be happy
(I know you're sad but please don't worry)
You always will be in my heart
I'll never forget our story
(Trust me when I say I'm sorry)

No other outcome

We need to talk about
The pain that's coming out
When your feeling shatters,
Then nothing really matters.
I don't want to lie
I don't want to die
I'm asking for a change
D' you think all of this is strange?

I wanna break the bond
I need you to respond
There's a mess in my heart
My life is falling apart

I wanna fly so high
I wanna touch the sky
I need to go away
To follow my own way
Too many things have changed
We should become estranged
Cause when love is gone
When we feel all alone
There's no other outcome

I still believe in love
I just need you to shove
I'm sure it's not too late
To change our sad fate

Nothing left to lose

Yeah I must serve my life sentence
I won't be free again
And I wrote you so many letters
I know that you won't forgive me
But I want you to know
You're in my cold heart forever

You don't care, what I swear
One last time I'll try to explain
I'm waiting for the day I die
I've got nothing else to hide
I'm your father, but forever
I'm your mother's murderer
You've got nothing else to choose
I've got nothing left to lose
Nothing else to prove
Nothing, nothing left to lose

I've got your blood in my veins
But I won't cry for you
How dare you ask for forgiveness

I 'm glad to know that you suffer
Cause I am suffering too
I've grown up without my mother

I don't care, what you swear
One last time I'll try to explain
I'm waiting for the day you die
I've got nothing else to hide
I'm your daughter, but forever
You're my mother's murderer
I've got nothing else to choose
You've got nothing left to lose
Nothing else to prove
Nothing, nothing left to lose

You're my daughter
You're a stranger
I'm your father
You're a monster

Keep hope alive

I'm feeling so empty inside of me
I would love to reach you for eternity
And I've tried to forget you so many times
And I've cried for you so hard I could have died

But I try so hard to keep my hope alive
(We know someday we're gonna be fine)
Together we're gonna reach the stars
(After dark, there will be sunlight)
I remember the promise I made one day
I will be there
Beside you

I love you more than everything but I feel alone
I'm waiting for you but I miss you so
And it's so hard to wait for your return
And I'm so bad, so sad, my heart will burn

Devil inside

You say you know who I am
No surprises, I play the game
I've been hiding my dark side
I've got the devil in my mind
It's just an emergency
The hell burns inside of me
As the beast is finally free
No one could escape from me

Devil inside, in my mind
Devil inside, you're alive
Devil outside, shame or pride?

Feel the pain, in my veins
You just don't know who I am
Just take care, everywhere
I might be your worst nightmare

There's nothing wrong in my brain
Nothing that you can explain
I have my own theory
I don't need no therapy
There's nothing to exorcise
I don't care for paradise
I'm falling in a black hole
Satan's waiting for my soul

The end is coming

The end is coming
And it's just a question of time
The wind is blowing
You'll surely never come back home

The end is coming
You're gonna give your life for us
Ring the freedom bell
You're gonna take us out of hell

There's no chance to escape
They sent you and sacrificed you
But we won't forget you

The end is coming
And it's just a question of time
The pain is growing
You start to cry, you're gonna die
The end is coming
And you're slightly getting cold
You're body's bleeding
Too bad you won't be growing old
Your eyes are closing
And you have no one's hand to hold
Ring the freedom bell
You're here to take us out of hell

There's no chance to escape
No chance to escape
They sent you and sacrificed you
But we won't forget you

Death is on the way

I believed that I was invincible
My disease has given me a wake-up call
I live to win but I'm scared to fall
Enjoy the day and Carpe Diem baby

I don't wanna cry to say goodbye
There's no need to pray before I pass away
I don't wanna try to justify
It's my personal choice to leave you this way

Time is flying so fast

Forget about the past
Death is on the way
Don't care about the future
It's the end of the adventure
Death is on the way

It's hard to keep a smile on my face
Can you feel my fear I know the end is near
I'm not sure I'm gonna leave a trace
But don't shed a tear deliverance is near

Time is flying so fast
Forget about the past
Death is on the way
Don't care about the future
It's the end of the adventure
Death is on the way

My body's full of rust
I'm gonna bite the dust
Death is on the way
I don't have time to waste
I wanna live the best
Death is on the way
Death is on the way

Can't survive without my love

To search her perfume on the pillow
To cry to take away my sorrow
To chase away the shadows of the night
To scream in vain to find a ray of light
Shivering in this bed of ice,
Ready for sacrifice, I can't survive without my love

To breathe, is like drinking a poison
To live, is like being in prison
I don't expect anything anymore
I won't survive my life is such a bore
My heart's bleeding all the time,

It isn't worth a dime, I can't survive without my love

There's no reason to be in tears
Smile because now I've no more fears
I know you're an angel in the stars
I wanna join you to heal my scars
I'm about to leave this earth
I pray for a new birth, I can't survive without my love

Dyin'in your eyes

First time I saw you
You blew my mind
You drove me insane
I can't explain
This unknown feeling
Gnaws at my spirit
I'm so cold outside
While I'm burning inside

Fear of losing control
Like I'm selling my soul

My brain's on fire
So full of desire
Too many questions
That can't be answered
Are you my angel?
Are you my demon?
My sweet temptation?
My bad addiction?

Fear of losing control
Like I'm selling my soul

Dyin' in your eyes
There's no escape, I'm your slave
Dyin' in your eyes
There's no way out, no way out for my love

First time I saw you
You blew my mind
You drove me insane
I can't explain
Are you my angel?
Are you my demon?
My sweet temptation?
My bad addiction?

Fear of losing control
Like I'm selling my soul

Dyin' in your eyes
There's no escape, I'm your slave
Dyin' in your eyes
There's no way out, no way out for my love
There's no way out, no way out for our love

The walkers

I realize that world is over
Things will never be the same
Now I'm a soldier not a lover
Killing now is not a shame

Here come the walking dead
Find their weakness blow their head
We'll never live in peace
In this world there's no justice
To steal, To kill
It's what we should do to survive

This is not the end of the road
We haven't found a place to rest
Avoid the walkers, fear the living
Terminus kills its guests

We are stuck in an endless run
Now we're the walking dead

Waiting for a better time

When I look into your eyes
I can see you don't love me anymore
I'm afraid of losing you
But I know there's nothing that I can do
I feel so sad, I'm also glad
I say that sincerely if you're happy
You found your happiness
I'm staying with my loneliness

I got you under my skin
I took your love to make my heart alive
I try to lie to myself
But I can't deny I'm not satisfied
I wanna feel you, I need to touch you
I can't imagine my life without you
I let you go but it breaks my heart at the same time

I'm waiting for better days
I know someday the sun will shine again
I will love you for always
And I'm sure you will be mine again
I'll be distant, surely patient
But I'll never be too far from you
I let you go but it breaks my heart at the same time
Waiting for a better time

Take my hand

I remember the days
When we were together
I can't forget our story
Now you're far away from me
I think my heart will burn
I pray for your return
But there's nowhere to hide
So many tears I cried

Please believe me when I say
Day and night you're always on my mind

Please take my hand
I promise I'll do better
You and me it's forever
There's no doubt in my mind
I see my future when I look into your eyes

I know that I was wrong
I'm trying to keep strong
I'm fighting for tomorrow
It's so hard letting you go
I need you all the time
I know that you are mine
I hope you'll understand
My love will never end

Please believe me when I say
Day and night you're always on my mind

Please take my hand
I promise I'll do better
You and me it's forever
There's no doubt in my mind
I see my future when I look into your eyes

Every day, every hour every minute
I'm gonna take care of you
'Til the end of time, 'til death do us part
My heart will only beat for you

I remember the days
When we were together
I can't forget our story
Now you're far away from me
I need you all the time
I know that you are mine
I hope you'll understand
My love will never end

My secret garden

Missing one inside of me
You were here but now you're gone
And now I'm feeling all alone
You can try to read my mind
To know my deepest feeling
You're the one that makes me feel right

You're everything I want
You're everything I need
You've got the secret key to me baby
I know it can't be real but

Stay inside of me
You're in my heart
You'll always be
In my secret garden
No one else
Can take your place

I've got nothing more to give
I'm empty since you left me
And I can't stand this hell I live
Missing one inside of me
You're not here and now I fall
I hope that you could hear my call

You're everything I want
You're everything I need
You've got the secret key to me baby
I know it can't be real but

Stay inside of me
You're in my heart
You'll always be
In my secret garden
No one else
Can take your place

Missing one inside of me

You were here but now you're gone
I hope that you could hear my call
